- OS (kernel) <-> interface
- "Low level", i.e. what happens if i do
  `x = open('input.txt').readAll()` ?
- POSIX vs Win32 vs ??

- Launching programs, dynamic libraries
- Communicating with OS / kernel, syscalls
- HW, IO
- Files, network
- IO (input, output)
- Processes and synchronization

- Andrew S. Tanenbaum, Herbert Bos. Modern Operating Systems
